DEAR FRIENDS,

Wouldn't it be fun to see every variety and species of bulb described in this book in full bloom? Then if you could also see the most promising new varieties from Holland's best growers ranged beside them, wouldn't you feel that you could choose the best kinds in all the world for your garden?

You're cordially invited to visit us during the Spring blooming season, and you'll see just such a display. Small blocks of each variety we offer, and new varieties still in the testing stage, possibly for introduction next year, all lined up for your inspection and pleasure.

This type of trial, with the cost of the bulbs, growing them and the days spent in evaluating them is expensive, but it qualifies us to recommend with authority the varieties which "pass the grade" and are included in our catalog listing. We feel that this is an invaluable service to you. It insures that the bulbs you get from Park, are the best varieties, as well as the best bulbs available in the great Floral Kingdom.

We'll look forward to hearing from you. It will be a pleasure to serve you, especially since reports from our growers indicate that we'll have extra fine bulbs for you. You'll like our service too, and perhaps even appreciate this gentle reminder, if because of it, you plant these lovelies in your garden. For, they'll burst forth into glorious color thrilling you to your toes and bringing the good springtime with them too.

Floricordially yours,
GEO. W. PARK SEED CO.

I took a day to search for God
And found Him not. But as I trod
By rock ledge, through woods untamed,
Just where one scarlet lily flamed,
I saw His footprint in the sod. (B. Carma)

Do not confuse this with the "Roggli" strain offered below which is several generations removed from the original. Seeds we offer here are direct from Mr. Roggli, the Swiss Originator of this world renowned strain. Huge flowers are produced on long erect stems. The color range is superb. There is a tendency toward the handsome deeper tones of red and blue, but it is well balanced with lighter yellows, whites, light blues. 60 seeds 25c; 300 seeds \$1.00; 1/32 oz. (about 800 seeds) \$2.00; 1/16 oz. \$3.75; 1/8 oz. \$6.75; 1/4 oz. \$12.

PARK'S PERENNIAL FLOWER SEEDS

for Permanence and Charm

These are valuable subjects of the flower garden, as most of them are not only showy and beautiful when in bloom, but will do service year after year for a long period, enduring cold, excessive rain and drought, regardless of neglect and improper attention.

Directions for making outdoor beds and sowing seeds are sent with every order.

Hp. HARDY PERENNIALS are hardy plants which will live and bloom every year for a long period. Plants grow to the flowering stage each year and die down again to the roots which remain alive but dormant until the next season. They are very valuable for borders and cut flowers, and once established require less care than the annuals.

Hb—HARDY BIENNIALS are those which bloom the second year from seed, then die. For a continuous display of this type, seed must be sown every year.

ANNUALS for FALL SOWING — Nature's Way

Fall Sown, these produce Sturdier Plants, Earlier Bloom, Longer Stems.

The purpose in fall planting is not to germinate the seed in Autumn, but to get the seed in place, ready to grow with the first favorable weather of spring. Plant slightly deeper than in spring. Protect the sides of beds with boards to prevent washing seeds away. Apply a protective mulch as soon as the ground freezes. Ideal planting time is just before the ground freezes.

From Philadelphia southward—Larkspur may be sown in September so that the seeds may germinate in the fall. With a protective mulch after the ground freezes, they will live over winter, and give extra early long stemmed flowers. From Washington D.C. southward, Sweetpeas too can be handled this way. From Southern Virginia southward add to these Antirrhinum, Dianthus, Phlox, Poppy, Calendula.

Daffodils or Narcissi

Daffodils are the first of the major garden flowers to bloom in the spring. Doubly precious because they bring with them the joyful spring. Because so many of the hundreds of varieties of Daffodils so nearly duplicate others, we have chosen to offer a representative variety of each class and color. These have been chosen through study in our own trial grounds and close cooperation with several leading Dutch and American growers, and we can without reservation recommend each variety we offer as one of the best in its class and color.

The flower is very large, of excellent substance, broad petalled and does not fade. Height 29 inches.
